

12th August 1985

Dear Educator,

We are delighted to send you your copy of our Australian Apple Education Software Directory 1985. We hope it will aid you in discovering the wide range of programs available to help you in teaching and motivating your students.

We just completed a new education poster, "A Peeled Apple IIe", which shows and explains the inside workings of the Apple. We are so pleased with it that we want to get it out to you educators as soon as possible, so we are taking advantage of this package to slip it in for you now. We hope you and your students enjoy it.

Sincerely,

A handwritten signature in black ink that reads "Di Ryall". The script is fluid and cursive, with the first letters of "Di" and "Ryall" being capitalized and prominent.

Di Ryall
